Associate of Science
The Associate of Science with Concentrations in Business and General Studies Degree provides a solid foundation in the arts and sciences in addition to introductory courses in a chosen concentration in business or general studies. Upon completion, students are able to explain the basic principles of the business concentration, demonstrate critical thinking skills, and use effective oral and written communication techniques. You can earn your Associate of Science degree in just about two years by attending our adult classes one night a week.

### Admission Requirements

Applicants must submit the following credentials:

- Montreat College Application for Admission
- Official transcripts of all prior college coursework
- An official high school transcript or GED certificate for students who transfer less than 24 semester hours of regionally accredited college coursework
- A score of 550 or above on the English as a foreign language test for students whose first language is not English
