Position: Assistant Professor of Cybersecurity

Location: Montreat, North Carolina

Start Date: August 2022

Summary: The School of Arts and Sciences at Montreat College seeks a full-time faculty member in the Cybersecurity Department to join a growing and dynamic faculty team. Montreat College's cutting-edge and visionary Cybersecurity program prepares students to solve the cybersecurity issues and concerns faced today in many corporate and government environments. This program's foundation consists of skills required to succeed in those environs: a combination of technical skills, communication, teamwork, ethics, and professionalism. In 2017, the Center for Cybersecurity Education and Leadership at Montreat College received the designation of Center of Academic Excellence in Cyber Defense (CAE-CD). Since receiving the CAE-CD designation, the college has added to its offerings a fully online BS in Cybersecurity and an Associate of Applied Science in cybersecurity. Montreat College also launched the Carolina Cyber Center (C3) to leverage the tremendous progress in cyber education and focus on workforce development and training. Our mission is to provide excellence in education and training for Western North Carolina and beyond. In 2022, C3 now boasts numerous industry partners who see the need for training, certifications, and another pathway into high-demand positions in cybersecurity. Montreat College also recently received significant funding from the state of North Carolina to further develop its Cybersecurity profile and program.

Duties and Responsibilities: The candidate will be responsible for:
- Teaching major courses in the Cybersecurity department determined by background and departmental needs, including but not limited to courses in Ethics, Certified Ethical Hacking/Penetration Testing, Governance Risk and Compliance (GRC), Operating Systems, Linux, Network Defense, Data Analytics.
- Advising students
- Participating in faculty committees
- Other duties as described in the Faculty Handbook

Qualifications: Successful candidate will be a leader in Cybersecurity and will affirm and support the Mission, Vision, and Statement of Faith of Montreat College as found here:
https://www.montreat.edu/about/mission/
The successful candidate will also demonstrate support for Christian liberal arts education and the specific ability to integrate faith and the discipline in a compelling, thoughtful manner. Teaching excellence and a willingness to serve the broader college community through service and committee work are also expected.

Education/Experience:

Required: An earned master's degree in Computer Science, Information Systems, Information Security/Assurance or Cybersecurity, and related experience in the industry.

Preferred: An earned doctorate in related field; Industry certifications such as Security +, CISSP, CISM, etc.; Graduate course work in data analytics, data science or similar. ABDs may be considered if evidence of progress toward dissertation completion can be presented. Professional experience and

industry certifications in Cybersecurity preferred and will be considered a part of the professional credentialing in the absence of a doctorate. College-level teaching experience preferred.

Supervision:
Vice President of Academic Affairs

Application Requirements/How to Apply:
Review of applicants will begin immediately and continue until the position is filled.
Candidates should send the following materials:

1) Complete https://www.montreat.edu/about/job-openings/application/
